

EXCEPTIONAL MEASURES

- Guests must inform check-in time.
- Snack bar open from Monday to Saturday. 19:30 to 22:30.
- Continental breakfast
- Rooms and apartments will be cleaned according to our own protocol and following Health Department guidelines.

OUR PROGRAMME FOR COVID-19

We have prepared a contingency plan consisting of clear and concrete measures to face Covid19 so as to reduce the risk of contagion in our hotel. This programme has been prepared according to workplace safety and health regulations.

Our main actions will involve:

- A thorough cleaning and disinfection plan
- Following official occupational health recommendations
- Identifying people at risk
- Coordination with third parties and suppliers
- Management of possible cases

Apart from protocols on cleaning and disinfection of public spaces, it is essential to gather information and provide training for work teams in order to adapt to this new reality.

We have established a safety committee responsible for verifying proper compliance with procedures, reviewing risk management processes, defining strategies as well as taking the appropriate decisions to minimize health hazards.

The contingency plan has been informed to hotel employees, suppliers and customers in order to guarantee its implementation and day-to-day running.
